

Dear Exhibitors,

We sincerely and warmly welcome you to participate in Medtec China 2020!

Covid-19 has changed our lifestyle and business model in an unprecedented way. It brings uncertainty to certainty and this caused cancellation and delay to many other shows. Medtec China have to survive the extreme pressure and conditions. Fortunately, the epidemic has been strictly controlled and alleviated over the last few months in China Mainland. Medtec China have been supporting domestic and global companies to restore their damaged supply chains and have been devoting our efforts standing up to the pandemic. To serve our social responsibility, we have established steady cooperation with Covid-relevant government functions to sourcing from raw materials to manufacturers at the very beginning of the pandemic. To Shen Zhen City alone, we helped find 14 high-quality medical device suppliers and effectively relieved the demand of medical devices.

Medtec China have entered into China for 16 years since 2004. We are very proud that Medtec China still increased 28% in space compared with 2019. There are 500 exhibitors attending this grand gathering in medical device manufacturing industry. The Germany Pavilion and Singapore Pavilion will continue to support Medtec China 2020. This year 160+ first timers will debut the products and technical services in 21 categories, including R&D and Design Services, Raw-Materials, Tubing and Extrusion, Components, Electronic Components, Manufacturing Equipment, Surface Treatment, Automation, Packaging and Sterilization, Testing, Metrology, and Inspection and Calibration Equipment and Supplies. We specially set up the Regulation Zone aiming at providing integral services and better total solutions to all the clients and professional visitors in the international medical device manufacturing industry.

We are now having more than 14,000 (12,500 in 2019) pre-registered professional visitors and buyers to attend our show, including 85+ enterprise delegations. They are mainly world-leading medical device manufacturing companies (domestic and overseas) and more China's OEM players are joining us. It is estimated that over 11,500 (10,000 in 2019) visitors are to celebrate this annual grand gathering in the most vigorous market——China.

Medtec China 2020 will have a large amount of content-rich onsite conferences covering Covid-19 issues, regulation updates, quality and technology. Quality Track B will be focused on “How to meet the quality requirements of products in overseas markets under the epidemic situation”. Our regulation summit, quality and technology forums will continue to focus on the frontline of the industry, making the modest contribution to the long-term development of China's medical device industry. 8 Free technology sessions will keep aiming at cutting-edge medical technologies bringing solutions to actual applications. “Technology Track C: The 4th Session of Pack&Ster Hub”, “Technology Track D: The 5th Conference of Medical Device Design”, “Technology Track E: Plastic Molding Technology in Medical Device Manufacturing” will return. The very popular and successful “Technology Track G: Technology Development of New Type Medical Dressings” and “Technology Track H: Seminar of advanced Technology of Medical Bonding and Welding” will deeply discuss the technology in the field introducing new ideas to the audience. “Technology Track A: High polymer material application in Medical Device”, “Technology Track B: 3D materials and technology application in Medical Device”, “Technology Track F: Core components and technologies Seminar of orthopaedic and dental products” are adding fresh blood into our conferences. The onsite conferences will concentrate on industrial hot topics, have an insight into the trends of industrial development, display the cutting-edge technology, and spark inspiration of participants, delivering the most efficient experience for the audience. Other onsite activities, including the regulation class, exhibitor technology seminars, new technology speeches are waiting for your visit.

Medtec China 2021 will be held at “Shanghai World Expo Exhibition and Convention Center (SWEECC)” during 1st-3rd/Sep/2021. The world becomes more complicated than ever, but we are very certain that medical device industry is always one of the fastest growing industries in the world. Come and Join us by rebooking booth onsite for Medtec China 2021.

We deeply understand how difficult it is to get together after the outbreak. We'd like to express sincere appreciation to all your support over the last 16 years. It is with your encouragement and support that the show can be held under this extremely unfavorable condition. We will continue humbly contributing to the development and solutions of the industry.

To all exhibitors – we sincerely wish you a complete success during Medtec China 2020!
